BOERNE CONCERT TO AIR ON TEXAS PUBLIC RADIO

BOERNE, TX – April 10, 2013. Texas Public Radio attended the Boerne Performing Arts performance by The 5 Browns back in early February. The purpose of their visit? To record the live performance by The 5 Browns at Champion High School Auditorium for future delayed broadcasts throughout the greater San Antonio and hill country region. The sold-out performance on February 9th provided concertgoers with an evening of musical mastery that will not soon be forgotten.

The 5 Browns signing autographs and meeting with young students following their performance in Boerne, Texas. Their goal of creating enthusiasm for classical music with young students is evident in their interactions with local students during the special student outreach program that was presented to over 1,000 students while they were in Boerne.

When there are 5 Steinway pianos on stage, performed simultaneously by siblings that are all graduates of the famed Juilliard School of Music and all exclusive Steinway artists, the symphony of piano performance was at the highest level. Having artists of this magnitude in the San Antonio area offers a unique opportunity for its residents.

Texas Public Radio received recording rights to this performance so that the concert could be “shared” by the general public. On Saturday, April 27th, at 7:00pm, this concert will re-air on KPAC and KTXI. Boerne Champion High School will be the featured venue!!

John Clare, Program Director of KPAC, attended the performance and was most impressed with the entire evening presentation. John even featured The 5 Browns with a pre-concert interview that was highlighted on the weekly "Classical Spotlight" program. John commented, "We continually try to interview the top artists that are visiting San Antonio. The Browns were a delight to interview and it was great to be able to promote the events that are taking place in Boerne, Texas."
